PAINTED BRAIN TALKS

WHAT IS THIS?
Learn about mental illnesses through personal stories, the impact of negative attitudes, and three things each of us can do to weave a more empathetic social fabric in Los Angeles. This 90 min workshop is for any community or organization interested in learning about mental illnesses and helping to change the perception and attitude about it.

WHY IS THIS IMPORTANT?
Sharing personal stories increases the shift toward a more progressive and compassionate society. This could reduce the number of mentally ill getting bullied, marginalized, jailed, or imprisoned.
